## DESCRIPTION OF STONE FINISHES

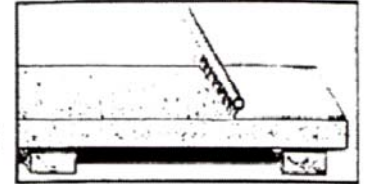

### "POLISHED"

A dark, mirror-gloss finish, made with felt buffer and tin oxide.

### "THERMAL"

A rough, random-texture finish created by spalling with high-temperature gas flames.

### "HONED"

A dark, smooth finish, ground with carborundum wheel or loose abrasive and water.

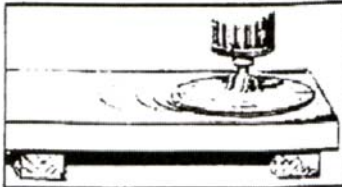

### "AXED"

A wide variety of smooth and textured patterns made by pneumatic hammers and steel chisels.

### "STEELED"

A light, smooth finish, from grinding with iron wheel and chilled shot.

### "ROCK-PITCHED"

A hand-cut rustic finish with edges dressed to a straight line.

### "METRO-STEELED"

A light, smooth finish by sand blasting with fine chilled shot.

### "SHELL ROCK"

A hand-cut rustic surface with strong, scalloped or dish shaped appearance.
